Legally Mine Presents
Tax Reduction, Lawsuit Prevention & License Protection

Medical professionals have unfortunately become all too easy targets for MANY trial attorneys! Legally Mine will teach you how to protect your medical license, guard against frivolous lawsuits, and save money on taxes. A small investment of your time and attention will pay a lifetime of dividends and keep more of the money you earn right where it belongs--IN YOUR POCKET.

Monday, September 23rd
11:30 - 12:45 PM
Lunch Will Be Served

Let Us Teach You How To Bridge The Gap Between Healthcare And The Law!
Even if a patient has had sex in the prior 24 hours:

- A negative result *is* valid
- A positive result may not be valid & should be confirmed > 24 hours

The majority of patients will test negative, even if they’ve had sex in the prior 24 hours.

We’re proud to be the largest and only dedicated OB/GYN hospitalist employer in the nation. But that’s not why hospitals want to partner with us and physicians want to work for us.

Our dedication to our OB hospitalists truly sets us apart. Not only do we invest in data collection and quality initiatives to help our teams achieve superior clinical outcomes, but we also empower our clinicians by investing in their training and career development.

To learn more about being a part of Team OBHG, stop by our booth or speak with any of our physicians.
